

Columbia Sun Tubes available through Morrison Windows...

Rigid and Flexible Sun Tubes

Columbia Sun Tube Skylights

Columbia's residential Sun Tubes bring natural light to virtually any space in your home. Installed on any roof in under two hours, the low profile acrylic dome captures sunlight on your roof from dawn til dusk.

Rigid Sun Tubes

Available in 4 sizes: **10" 13" 18" 21"**

Kit Includes: Dome, Roof jack, 4 feet of rigid light tube and a flat prismatic or soft white diffuser for sleek modern interior finish.

Models available: sloped, flat, curb mount, low profile glass.

Flexible Sun Tubes

Available in Canada's most popular sun tube size: **13"**

Kit Includes: Dome, Roof jack, 8 feet of flexible light tube and a flat prismatic or soft white diffuser for sleek modern interior finish.

Models available: sloped, flat, curb mount, low profile glass.

24" Light Pipe Extension

Electric Light Kit

Adjustable Elbow (0° - 45°)

Remote Dimmer Kit

1 Dome

High impact modified acrylic, absorbs 99% of UV rays.

2 Flashing

Black baked enamel heavy duty aluminum frame compliments existing roofing materials. Angled roof jack with unique forward sloping design eliminating light robbing elbows. Flat roof jack available for flat roof installation.

3 Rigid Light Tube

Micro silver aluminum pipe with 98% reflectivity, easily trimmed with shears during installation.

4 Flexible Light Tube

Available on 13" only. Highly reflective aluminum duct, tear, puncture and fire resistant.

5 Diffusser

Flat diffusser for smooth integrated finish.
Prismatic: Offers the maximum amount of light.
Soft White: Provides a softer light.
